

Enviro-Zyme International, LLC

“L”

Benefits of “L”

Keep floats clean

Reduce grease build-up headaches

Prevent emergency blockages

Lower grease disposal costs

Reduce Odors

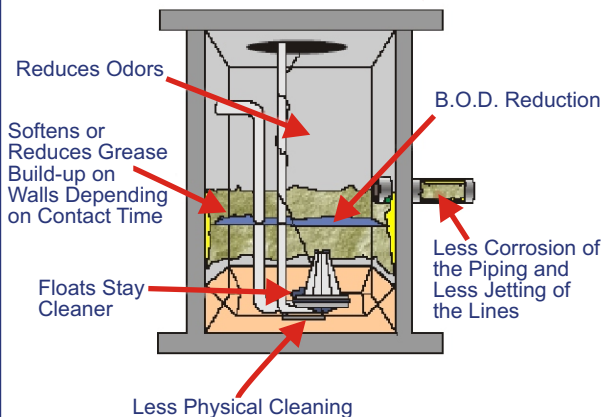

Product Description - Powder

“L” is a potent combination of billions of active Aerobic and Anaerobic bacteria cultures that produces enzymes specially engineered to degrade animal fats, oils and greases. The ENZYME activity enhances and increases lipid reduction by converting the lipids into carbon dioxide (CO₂) and water (H₂O).

“L” increases organic digestion at meat slaughter houses, butcher shops and meat rendering establishments, etc. and POTW's in pretreatment and treatment of heavy influxes of animal fats, oils and greases.

“L” is non-toxic, non-flammable, biodegradable, non-corrosive and non-volatile.

Treatment of heavy influxes of animal fats, oils and greases!
